

INVEST POLAND - KOPAŃ: INVEST IN YOUR HOLIDAY HOUSE

- Invest Poland offer:

Darłowo is located around 180 km away from the Polish-German border halfway between Świnoujście and Gdańsk. The area is one of the best holiday venues in Poland, and can boast a charming fishing port and the clean Wieprza River flowing into the sea beside one of the most picturesque beaches by the Baltic Sea.

Darłowo is mainly known for the Danish king Erik of Pomerania (1382–1459). Today, his tomb can be found in St. Mary's Church in Darłowo.

He ruled over Denmark, Norway and Sweden and began the construction of Pomeranian Dukes' Castle in Darłowo. The castle is still in an incredibly good shape and houses today a museum dedicated to King Erik. Every year, Darłowo attracts a lot of tourists arranging numerous festivals also featuring Polish celebrities.

You can reach Darłowo by car in about two and a half hours from the German border, Travelling by ship or by train is also possible. Another option for tourists from Scandinavia are car ferries to Świnoujście and Gdańsk, or travelling by air to Gdańsk.

We have a pleasure to offer you 32 brand-new apartments in different sizes, some with ownership, close to one of the most attractive holiday resorts in Poland, namely Kopań near Darłowo.

With this project, the Invest Poland company intends to offer you quality holidayhomes like in the most attractive summer resorts in Western Europe.

The economy in Poland is booming, and with increasing wealth, summer accommodation will soon be an attraction in Poland. That is why you should consider investing in your future. Secondly, you can start dreaming about pleasurable rest in private in your own summer house – and consider this as an extra benefit.

The estate is located beside Lake Kopań with a spectacular view over the lake and the sea in the background. Without any doubt, we as investors see this as one off the most beautiful area in north part off Poland. A wonder of nature close to the Baltic Sea (beach) and incredibly quiet – so it is absolutely recommendable.

We are building Kopań on tree floors, were the ground-floor apartments having a garden. Once the construction is completed, some apartments will go from the ground to the first floor and some from the first to the second floor. On every floor, you will find spacious single apartments and penthouse apartments with an extra spectacular view from the second floor. We have designed a very imaginative construction on the first floor so that you may walk down to the living-room and up onto the second floor. It will feel like a three-floored apartment, and the big windows will give an impressive view over the living-room and Lake Kopań.
